`Continuous learning` `Code Efficiency` `Problem Solving` `Coding Skills`

Intern
Sabudh Foundation

May 2022 - Dec 2022

Dynamic Data Science Intern proficient in Pandas, NumPy, and skilled in crafting advanced machine learning models. Excelled as a Kaggle notebook expert, contributing to solar power prediction for Akal Academy. Leveraged analytical prowess to process and analyze large datasets, implementing predictive models that enhanced energy efficiency.

Skills:

`Pandas` `Machine Learning` `Jupyter Notebook` `Kaggle`

OPEN SOURCE CONTRIBUTION

Spree Edge
https://github.com/spree-edge

Spree Commerce offers a rich library of free, open-source extensions and prebuilt solutions designed to streamline eCommerce development. These extensions cater to a variety of functionalities, such as payment gateways, shipping methods, analytics, and marketing tools, enabling developers to enhance and customize online stores effortlessly. By leveraging these community-driven resources, businesses can save time, reduce costs, and implement innovative features tailored to their specific needs, ensuring a robust and scalable eCommerce platform.

Contributions:

Updated the following gems to ensure compatibility with Spree 4.8.

- Spree Email Templates
- Spree Product Subscriptions
- Spree Related Products
- Spree Slider

PROJECTS

Cookies
https://lemonnade.co/

Sep 2024 - Dec 2024

Cookies is a leading cannabis brand known for its premium selection of flowers, vapes, pre-rolls, and edibles. The brand's mobile app offers an enhanced shopping experience, allowing users to browse products, locate nearby stores, and receive the latest news on events and promotions, ensuring they never miss out on new arrivals.
